# PRODUCT GUIDANCE

## Quality

Our Premium Fine Porcelain has the composition of Kaolin, Ball Clay, Feldspar and Silica, we have created our own glaze formula and use pure raw materials with the finest quality. Being fired at 1,250°C, this temperature range makes the products durable for serving all functional usage with 0% water absorption. Besides, our products are specially designed to maximize strength, reduce cracking and chipping.

## Design & Function

Our products are designed with multi-functional concept aiming to be a smart solution for all different purposes. For example, various creative stackable items suit the idea of storage and facilitates space saving.

## Dishwasher & Microwave Safe

The products are safe to use with industrial dishwashing machine. The glaze and decoration do not stain or lose their brilliance or color. With dishwashing machine, it can be in excess of 1,000 cycles. Our products are also guaranteed to be completely microwave safe.

## Thermal Shock & Crazing Resistance

Our products are tested at the extreme temperature condition. The products can resist the sudden change from freezer to microwave.

## Lead & Cadmium Free

Our Products are tested and passed the lead & cadmium free under standard test FDA, California Proposition 65 and EU Directive 84/500 EEC. Our product is safe and hygienic to be used as food container.

## Cut & Scratch Resistance

The hardness of our glaze prevents any cut & scratch remaining on the surface. We pay special attention to polish and form the foot of our tableware in order to guarantee a smooth foot to reduce the risk of abrasion and scratching during stacking.

# PRODUCT GUIDANCE

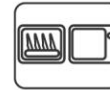

## Quality

Our Premium Fine Porcelain has the composition of Kaolin, Ball Clay, Feldspar and Silica, we have created our own glaze formula and use pure raw materials with the finest quality. Being fired at 1,250°C, this temperature range makes the products durable for serving all functional usage with 0% water absorption. Besides, our products are specially designed to maximize strength, reduce cracking and chipping.

## Design & Function

Our products are designed with multi-functional concept aiming to be a smart solution for all different purposes. For example, various creative stackable items suit the idea of storage and facilitates space saving.

## Dishwasher & Microwave Safe

The products are safe to use with industrial dishwashing machine. The glaze and decoration do not stain or lose their brilliance or color. With dishwashing machine, it can be in excess of 1,000 cycles. Our products are also guaranteed to be completely microwave safe.

## Thermal Shock & Crazing Resistance

Our products are tested at the extreme temperature condition. The products can resist the sudden change from freezer to microwave.

## Lead & Cadmium Free

Our Products are tested and passed the lead & cadmium free under standard test FDA, California Proposition 65 and EU Directive 84/500 EEC. Our product is safe and hygienic to be used as food container.

## Cut & Scratch Resistance

The hardness of our glaze prevents any cut & scratch remaining on the surface. We pay special attention to polish and form the foot of our tableware in order to guarantee a smooth foot to reduce the risk of abrasion and scratching during stacking.

### GEM SERIES

*Color glaze and Matt Glaze finishes on product will tend to show wear and tear to a greater degree. Please use the product with special care to extend its life cycle and to preserve its appearance.*

### SATIN SERIES

*Color glaze and Matt Glaze finishes on product will tend to show wear and tear to a greater degree. Please use the product with special care to extend its life cycle and to preserve its appearance.*

### SAND SERIES

*Color glaze and Matt Glaze finishes on product will tend to show wear and tear to a greater degree. Please use the product with special care to extend its life cycle and to preserve its appearance.*

# PRODUCT GUIDANCE

## Quality

---

Our Premium Fine Porcelain has the composition of Kaolin, Ball Clay, Feldspar and Silica, we have created our own glaze formula and use pure raw materials with the finest quality. Being fired at 1,250°C, this temperature range makes the products durable for serving all functional usage with 0% water absorption. Besides, our products are specially designed to maximize strength, reduce cracking and chipping.

## Design & Function

---

Our products are designed with multi-functional concept aiming to be a smart solution for all different purposes. For example, various creative stackable items suit the idea of storage and facilitates space saving.

## Dishwasher & Microwave Safe

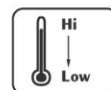

---

The products are safe to use with industrial dishwashing machine. The glaze and decoration do not stain or lose their brilliance or color. With dishwashing machine, it can be in excess of 1,000 cycles.

Our products are also guaranteed to be completely microwave safe.

## METAL SERIES

*Gold decorations should be handled with extra care, we recommend hand-washing as they are sensitive when contact with detergents and abrasion. And due to the metal content of gold decoration, these particular items should not be used in Microwave.*

## Thermal Shock & Crazing Resistance

---

Our products are tested at the extreme temperature condition. The products can resist the sudden change from freezer to microwave.

## Lead & Cadmium Free

---

Our Products are tested and passed the lead & cadmium free under standard test FDA, California Proposition 65 and EU Directive 84/500 EEC. Our product is safe and hygienic to be used as food container.

## Cut & Scratch Resistance

---

The hardness of our glaze prevents any cut & scratch remaining on the surface. We pay special attention to polish and form the foot of our tableware in order to guarantee a smooth foot to reduce the risk of abrasion and scratching during stacking.
